Documentation
Title of your project

John Doe
Matrikelnr.: 1234567

2. April 2019

Write a little abstract about your project (max. 5-10 sentences).
This should just summarize what you did. The reader should get
an idea about your mini project just by reading this paragraph.

1 Motivation

Explain here why you decided working on this project. If you have some references, feel free to add them.

Goals

Briefly describe your project and its goals.

2 Concept

How did you solve the task? Briefly describe the steps you took. What were the main conceptual issues about this project and how did you solve them?

3 Implementation

How did you implement your solution? What were concepts you used repeatedly? What challenges occurred during the implementation?

4 Conclusion

What is your conclusion of the mini project? Could you solve all challenges? Is there anything you would have done differently if you did the project again?
